

HAMPIĐJAN

FLUME TANK WORKSHOP
9th – 11th of December 2015

Dear customer,

Hampidjan will organise a Flume Tank Workshop in Hirtshals in December.

The main emphasis will be on midwater and bottom trawl trials while other related matters of interest will be covered with short seminars. Participants will play an active part in the trials, with their comments and requests for special tests. As for many years **Thyborøn Trawldoors** will be there showing new line of doors. This year representatives from **Marport** will attend and held lectures about their newest technology in sensors.

8th of December

Participants gather in Hirtshals, Denmark. We recommend that participants will fly from Copenhagen to Aalborg with flight No. SK1221 (Scandinavian Airways), departing from Copenhagen at 20:50 and arriving in Aalborg at 21:35. A bus will drive participants, booked on this flight, from Aalborg to Hirtshals (this is about 45 min drive). Hampidjan has booked rooms on Montra Skaga Hotel in Hirtshals for all participants. <http://www.skagahotel.dk>

9th to 11th of December

The Flume Tank Workshop will be held from the morning of Wednesday until the afternoon of Friday. The main activity will take place in "Nordsöcentret", at The Marine Institute Centre, situated across the street from the hotel. <http://www.sintef.dk>

Departure from tank, 11th of December

A bus will drive participants from Skaga Hotel to Aalborg airport where majority of the group will join flight No. SK 1210. Departure time is 16:00, with arrival time in Copenhagen at 16:45. Hampidjan has booked hotel for the group in Copenhagen for one night. Participants are of course welcome to organise their departure differently and are advised to consider the transportation from Hirtshals to Aalborg.

BOOKING PROCEDURES

Hampidjan has pre-booked the flume tank, buses and the hotels. Price per participant is EUR 1.250, including transportation from Aalborg to Hirtshals and back to Aalborg, 3 nights at the Montra Skaga Hotel, one night at Hotel SP34 (breakfast included) and lunch at the tank area for three days.

In order to organise the workshop and all preparation we kindly ask all interested in participating to fill in the attached registration form. The form should then be faxed or e-mailed to Hampidjan before 13th of November 2015.
